first, we can install using windows software and wubi-installer (Ubuntu-15.10-desktop-i386.iso). this method is best for windows users. If you have already installed windows OS, you can install Ubuntu-15.10-desktop-i386.iso using wubi-installer. cd /mnt/c/autocad2016/xampp/htdocs/download/LICENSE --->go to license-folder --> press ctrl+X to show the dialogue box then press y to accept the license file. open the program and type autocad 2013 64bit with key and press enter. it will start the autocad 2013 64bit installer. when it is done, press next to go to the next step. Choose Install and select ubuntu when the installation window pops up. Enjoy!! then open the program, click on welcome to ubuntu and then on install missing driver. it will now show a list of drivers for your computer. select all the green ticked drivers, then click continue and continue. next, click on apply changes and then on close. now you should have a menu bar with options at the top of the computer, the programs will have been installed. when the desktop loads, open nautilus and locate your download folder then open the folder and inside it will be the name of your torrent file. then right click it and click on open with this program. select your external drive, select open and then select the folder you want to download in. and it will start downloading. Save the file to your external hard drive. that's it. if you want other files, you'll have to download and extract them through torrent. MP3 to OGG Converter is the best software that can
